How much substrate is needed to plant the Airy systems?

Micha - AIRY Customer Care - 2019-08-20 - in First Steps

The mineral substrate AIRY base* is filled in bags of 3 litres each.

The following quantities of substrate are required for planting:

AIRY pot (M) with 1 plant, 17cm pot diameter

2 bags AIRY base

AIRY box (L) with 3 plants, 12cm pot diameter

3 bags AIRY base

AIRY box (L) with 2 plants, 17cm pot diameter

3 bags AIRY base

AIRY box (L) with 2 plants, 12cm pot diameter

4 bags AIRY base

When planting, please note the following:

During filling the inner pot should be shaken from time to time and the substrate compacted by pressing the mass.

The air slots of the inner pot should always be completely covered in order to achieve the best possible air filtration. If there is any substrate left, please put it aside to fill up if necessary.

*AIRY base is available in our online shop: <https://shop.airy.de>
